

How to upgrade your leadership

BE A LEADER OF GROWTH AND CHANGE

In order to change the outcome, you have to change the system.

SPEND MORE TIME WITH NON-CHURCHGOERS

Lead non-churchgoers further along their spiritual journey, not just Christians.

(And manage your energy, not just your time.)

LEARN LEADERSHIP ONLINE

Use artificial intelligence, virtual reality, online courses, and even gaming.

RUTHLESSLY FOCUS ON YOUR WHY

Encourage several organizational visions built around one mission.

Be willing to live with less to get there.

LISTEN TO JETHRO - YOU HAVE TO DELEGATE

Leadership isn't about being Superman or Wonder Woman: think Justice League.

Autocratic leadership will continue to be replaced by transformational leadership.
